PROFESSIONAL SUMMARY

Data-driven Business Intelligence and Data Analytics graduate with First Class Honours, currently pursuing a Master's degree in Information Systems and Data Management. I bring a strong foundation in analytics, data governance, and process improvement, supported by practical industrial experience. I am passionate about transforming complex data into clear, actionable insights that support decision-making and operational efficiency, while continuously developing my skills in emerging technologies and data-driven solutions that deliver real business impact. I am also highly adaptable, detail-oriented, and driven by continuous learning in fast-paced, technology-focused environments.

WORK EXPERIENCE

Augmenta Cyber Security (Gaborone International Finance Park)

Automation & Operational Compliance Analyst

Feb 2026-Present

- Designed, governed, and optimized automation solutions (RPA, scripts, and workflows) with embedded compliance controls, audit logging, and exception handling to improve process efficiency and data integrity.
- Assisted the development and implementation of ISO/IEC 27001-aligned policies, standards, and procedures, strengthening information security governance and ensuring regulatory compliance.
- Supported internal and external audit processes through control validation, evidence collection, and remediation tracking, enabling stronger governance and traceability of compliance activities.
- Support internal and external audits through control validation, evidence preparation, and remediation tracking.
- Investigated incidents, integration failures, and control gaps, performing root cause analysis and implementing corrective and preventive actions (CAPA) to improve system resilience.
- Collaborated with IT, security, and business stakeholders to translate compliance requirements into scalable automation, integration, and control monitoring solutions.

Security Operation Centre (SOC) Analyst

Jul 2025-Feb 2026

- Used Tenable Vulnerability Management to conduct vulnerability scans across network and systems, analysing results to identify risk trends and support data-driven remediation prioritisation.
- Performed continuous security monitoring and incident triage within a SOC environment, converting security event data into structured insights for timely escalation and decision-making.
- Utilised SIEM platforms to monitor, aggregate, and analyse security logs and alerts, correlating multi-source data to identify patterns, anomalies, and emerging threats.
- Contributed to SOC daily briefings by summarising key metrics, incident trends, and risk indicators to support informed operational and management decisions. Supported threat intelligence processes by collecting, enriching, and correlating data from multiple sources to enhance detection accuracy and improve security analytics outputs.

Mascom Wireless (Mascom Innovation Center- Phakalane)

Business Intelligence and Data Analyst Intern

Jan 2024- Jul 2024

- Developed and automated optimized SQL-driven reports and Excel models that enhanced data accuracy and reduced report generation time by 30%, supporting financial and operational decision-making.
- Collaborated with business stakeholders to gather requirements and translate them into actionable analytics solutions.
- Designed dynamic dashboards and visual analytics using Microsoft Power BI and Tableau, enabling senior management to quickly interpret financial and performance metrics for strategic planning.
- Supported data quality validation and reconciliation activities across reporting datasets.
- Performed business intelligence and statistical analysis to identify trends, performance drivers, growth opportunities, and operational risks, providing actionable insights for strategic decision-making.

EDUCATION

University of Sunderland

BSc (Hons) Business Intelligence and Data Analytics (First Class Degree)

CERTIFICATES

- **ISO/IEC 27001:2022 Information Security Management Systems Lead Auditor** – Mastermind Assurance, Apr 2025
- **ISO 9001 Quality Management Systems Associate** – SkillFront, Apr 2025
- **Lean Six Sigma Green Belt** – Advanced Innovation Group Pro Excellence (AIGPE™), Jul 2024
- **Information Systems Auditing, Controls & Assurance** – The Hong Kong University of Science & Technology, Apr 2024
- **ISO 22301 Business Continuity Management (BCM & BCP)** – Udemy, Mar 2024
- **Data Analytics Methods for Marketing** – Meta, Mar 2024
- **Lean Six Sigma White Belt Certified** – Management & Strategy Institute, Mar 2024
- **Foundations of Business Intelligence** – Google, May 2024
- **Business Analysis & Process Management** – Coursera, Jun 2024
- **General Data Protection Regulation (GDPR)** – Udemy, Feb 2024
- **Scrum Foundation Professional Certificate (SFPC™)** – Certiprot, Mar 2023
- **Google Analytics** – Google Digital Garage, Mar 2022
- **AWS Cloud Practitioner** – Amazon Web Services (AWS), Jun 2022
- **Misinformation and Disinformation Training** – Management & Strategy Institute, Mar 2023
- **Certificate of Proficiency (COP) in Long Term Insurance** - Africa Insurance Training Institute (AITI), Mar 2023

SKILLS

Technical: Power BI, SQL/T-SQL, Data Modelling (Star & Snowflake Schemas), Data Visualization, Dashboard Development, ETL/ELT, Data Analytics, Business Intelligence, Reporting Automation, Machine Learning, Python, R, Advanced Excel, Data Quality Management, Data Governance, BPMN, Process Improvement & Analytics, Cloud Computing, Cybersecurity Compliance

Soft: Analytical Thinking, Problem Solving, Stakeholder Engagement, Business Requirements Gathering, Communication, Attention to Detail, Collaboration, Innovation, Teamwork, Adaptability
